Re: Annual Wage Order No 19 - OBJECTION

To Whom It May Concern:

Pursuant to Title 8 CSR 20-5.010 of the Code of State Regulations, please accept this as our formal objection to the Basic Hourly Rates provided in Annual Wage Order No. 19, filed by the Missouri Division of Labor Standards with the Secretary of State on March 9, 2012 in the counties of Saline and Cooper. A review of Occupational Title "Asbestos Worker (H & F) Insulator" indicate an incorrect Basic Hourly Rate amount based upon hours worked in these counties.

The rate set forth in Saline County was established by 18 hours of time submitted to the DOL. Enclosed please find timesheets for work performed in this area totaling 916.5 hours worked during the reporting period for this occupational title.

The rate set forth in Cooper County was established by 16 hours of time submitted to the DOL. Enclosed please find timesheets for work performed in this area totaling 17.5 hours worked during the reporting period for this occupational title.

We concluded that based on hours worked in these counties, as evidenced by the enclosed timesheets, the prevailing rate of pay should be set at \$34.04. We ask that the Commission make this change accordingly.

Respectfully Submitted,

Steven Tavis
